DETAILED ACTION

Claims 19-23 are pending and under examination.

Election/Restrictions

Applicant's election of the species, melanoma, in the reply filed on January 15, 2010 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)). Claims 21 and 22 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim.

Claims 19, 20 and 23 are under examination.

NEW REJECTIONS: Based on the Amendment

Claim Objections

Claim 20 is objected to under 37 CFR 1.75 as being a substantial duplicate of claim 19. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the

Art Unit: 1642

applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 19, 20 and 23 are rejected under 35 U.S.C. 102(e) as being anticipated by Andrews et al (US Patent No. 6,936,248, issued Aug 30, 2005, filed March 10, 2000)..

The claims are drawn to a method of inhibiting malignant cell migration and metastasis in a host having a malignancy which is melanoma, by administering of an effective amount of a composition containing anti-CCL25 antibodies, wherein the antibody is humanized.

Andrews et al., disclose treating patients with melanoma with antibodies to TECK (CCL25). (column 29, lines 53-57; column 30, lines 31-45), wherein the antibody is humanized. (column 9, lines 38-46).

Summary

Claims 19, 20 and 23 stand rejected

.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 1642

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
